## CAMERA SETUP CONTINUED

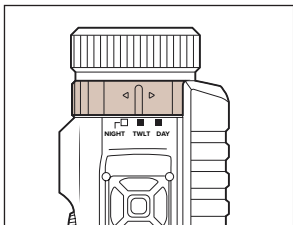

7. Download SIONYX Aurora App from the App Store or Google Play.

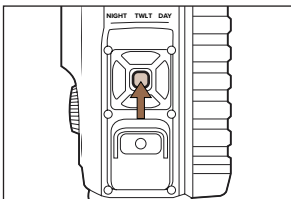

8. Look into the viewfinder and rotate the diopter to bring the menu into focus. Your camera is now ready to use!

9. Rotate selector ring to change between Day, Twilight, and Night mode.

10. Additional settings can be accessed by long pressing the SET button on the top of the camera.

**NOTE:** Aurora Sport and Black models ship with Electronic Viewfinder Display Timeout set to 60 seconds to conserve battery when not in use. To disable, access second layer menu and select EVF Time Out.
